The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply					
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).					
Status					
 Responsive to communication(s) filed on 1/4/06. This action is FINAL. This action is non-final. Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213. 					
Disposition of Claims

Application/Control Number: 10/735,933

Art Unit: 2876

1. Applicant's amendment filed 1/4/2006 has been entered.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Page 2

- 3. Claim 52 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 52 is currently dependent upon cancelled claim 30 and thus is incomplete.
- 4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 5. Claim 1 remains rejected under 35 U.S.C. 102(b) as being anticipated by Monico 6,259,369. Monico discloses a RFID device (29) associated with a mail piece (11). When the envelope is sealed the RFID device is active. Thus the state being one of a "never opened" state is anticipated when the RFID device is active and transmitting to an inherent receiver (interrogator). The reception of a transmission from the RFID is considered to be indication of the mail piece status. It is also inherent that a processor for processing the information received by the interrogator is present, i.e. the data center in communication with the interrogator.
- 6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Application/Control Number: 10/735,933 Page 3

Art Unit: 2876

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

- 7. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).
- 8. Claim 26 remains rejected under 35 U.S.C. 103(a) as being unpatentable over Monico 6,259,369. Monico discloses that which is seen above. Monico does not disclose the additional interrogator units as in claim 26. However, Official Notice is taken that multiple interrogators used in the operational environment is old and well known. It would have been obvious to a person of ordinary skill in the art at the time of the invention to implement the system of Monico with a plurality of interrogators. This would allow for the mail piece to be tracked at a plurality of locations.
- 9. Claims 2-25,27-29,31-51,53-57 are allowable over the prior art of record for the same reasons as previously set forth.

Application/Control Number: 10/735,933

Page 4

Art Unit: 2876

10. Applicant's arguments filed 1/4/2006 have been fully considered but they are not persuasive. Applicant argues that the "never opened" state is not inherent within Monico. The examiner respectfully disagrees. Claim 1 recites the choice of either a never opened state or a previously opened state. When the mail is first received it is inherent that it is "never opened". The system of Monico processes mail that has received in such a condition and therefore it is inherent that Monico includes processing of mail pieces in the "never opened" status. Applicant also states that the examiner's holding of Official Notice is not understood. However, as clearly stated in the previous rejection and repeated above, the examiner is merely relying upon Official Notice to establish that "interrogators" (claim language) existing in plurality in a mail handling system are known and therefore including an additional "interrogator" to Monico, which already includes an "interrogator" is obvious for the reasons stated above.

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Art Unit: 2876

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Karl D. Frech whose telephone number is (571) 272-2390. The examiner can normally be reached on maxi-flex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael G. Lee can be reached on (571) 272-2398. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free).
